

**B**irleşik Akrilik Sanayi (**BAS**) established in 1985 to produce cast acrylic sheets. Since then, the company became the most developed and the leader Turkish supplier in acrylic sheet market. Birleşik Akrilik Sanayi (**BAS**), satisfied the needs with its renowned brands **BAS CAST**, **BAS SURFACES** and **BAS EXTRUDED**. **BAS** provides solutions in commercial, marketing, design and construction sectors in Turkey since beginning. The company also chased the involvements in global phase and created the acrylic solid surface brand which is called 'BAS SURFACES' to fulfill the need for solid surface material in bathroom, kitchen and luxury interior design markets. **BAS** started to produce extruded PMMA and solid polycarbonate sheets with the brand new OMIPA Extrusion Line in the new **BAS** facility in Düzce under the name of **BAS EXTRUDED**. **BAS EXTRUDED** PMMA and solid PC sheets provides 205 cm of width and 2-20 mm of thickness. Birleşik Akrilik Sanayi, produces acrylic sheets for international market and exports products for decades. The production has been moved to the city of Düzce in 2012 from Kağıthane, İstanbul to be able to increase the production capacity. Birleşik Akrilik Sanayi produces **750,000 kg** of PMMA cast acrylic; **400,000 kg** of extruded PMMA and solid PC; **250,000 kg** of **BAS SURFACES** 100% acrylic solid surface sheets every month.

### 'Hard working, Made in Turkey'

Contemporary technologies of **BAS** provide its customers enormous advantages in terms of energy consumption and price. Environmental standards are fundamental. **BAS** is working in conformity with ISO code 14001, ISO code 9001 and CE certified standards. For the ultimate food contact standard; **BAS** also provides NSF certification on specified colors of **BAS SURFACES** material.

**BAS** has continuously increased both its production capacity and product quality. As a result, company has become one of the leading producers on global scale. In its Düzce Production Facility, **BAS** produces:

- ✓ 250 tons of **100% acrylic solid surface** sheets
- ✓ 600 tons of **extruded PMMA** and **solid PC** sheets
- ✓ 750 tons of **cast PMMA acrylic** sheets

## **BAS SURFACES**

100% acrylic solid surfaces

Innovative BAS SURFACES, 100% acrylic solid surfaces, provides high-performance material in superior standards. The homogenous structure of BAS SURFACES sheets allows easy restoration and high level of hygiene. The solid micro level structure of BAS SURFACES sheets inhibits the growth of bacteria or fungi. As a result; BAS SURFACES sheets are not only preferred in the kitchen applications but also in restaurants, hospitals, laboratories and schools.

BAS is the leading producer of **100% acrylic solid surface** material in Turkey with the production capacity of 250 tons per month.

- ✓ Infinite color and decorative surfaces
- ✓ High thermoforming performance
- ✓ Inhibits growth of bacteria or fungi
- ✓ Maximum hygiene
- ✓ 20 different size
- ✓ 6 – 20 mm of thickness

Wide application areas of BAS SURFACES in global phase:

- ✓ Acrylic and solid surface fabricators
- ✓ Advertising and event agencies
- ✓ Public utility
- ✓ Architects, designers and construction
- ✓ Bank, hotel receptions counters

## **BAS SURFACES**

100% acrylic solid surfaces

### Distinctions of BAS SURFACES:

- ✓ 10 years of color fading guarantee
- ✓ Competitive pricing
- ✓ Easy thermoforming
- ✓ Wide range of sizes
- ✓ Capability of producing requested size
- ✓ Custom colors upon request
- ✓ Instant delivery

### BAS SURFACES under the conformity of:

- ✓ ISO 9001:2008
- ✓ ISO 14001:2015
- ✓ CE Certification
- ✓ NSF Certification

### Recent references:

Mercedes-Benz, HSBC, Türk Telekom, Arçelik, Yapı Kredi, Atatürk Airport, Ziraat Bank, ING Bank; entire KFC and Pizza Hut restaurants in Azerbaijan.

## 

Fully developed high-end extrusion technology of **Birleşik Akrilik Sanayi** in terms of innovation, efficiency and high quality: BAS EXTRUDED PMMA sheets and solid PC sheets.

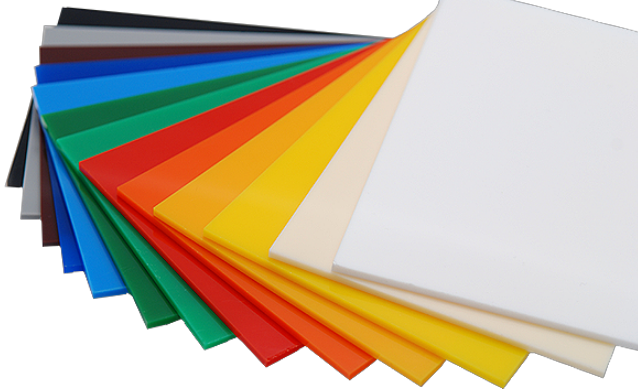

- ✓ PMMA extruded sheets
- ✓ Solid polycarbonate sheets
- ✓ Polystyrene sheets
- ✓ Up to 2050 mm of width
- ✓ 2 – 20 mm of thickness
- ✓ High-end extrusion technology for innovation, efficiency and quality

BAS EXTRUDED sheets are designed to fulfill the local and global demand of high quality extruded PMMA acrylic sheets, solid polycarbonate sheets and polystyrene sheets for various business and fabrication sectors. BAS EXTRUDED brand provides sheets up to 2050 mm width and 2 to 20 mm of thickness. The modern, high-end technology of fully developed European Standard BAS Extrusion Line integrates innovation, efficiency and high quality.

## 

BAS CAST, PMMA acrylic sheets, provides all kind of solutions thanks to its wide range of different size and color.

- ✓ 500 colors and 200 different sizes
- ✓ Instant delivery
- ✓ 750 tons of monthly production
- ✓ High quality standards

PMMA acrylic sheets, provides all kinds of solutions thanks to its wide range of different size and color. BAS produces 9000 tons of cast PMMA sheets per year.

Various colors of BAS CAST differentiated in:

- ✓ BAS CAST Transparent
- ✓ BAS CAST LED
- ✓ BAS CAST Vario
- ✓ BAS CAST Fluorescent
- ✓ BAS CAST Sanitary
- ✓ BAS CAST Satinice
- ✓ BAS CAST Day & Night
- ✓ BAS CAST Opaque

## **BAS SURFACES**

100% acrylic solid surfaces

**BAS SURFACES** 100% Acrylic Solid Surfaces, provides high performance material in superior standards. The homogenous structure of BAS SURFACES sheets' allows easy restoration and high level of hygiene.

**BAS SURFACES** sheets are not only preferred in kitchen but also in restaurants, hospitals, laboratories and schools by the support of internationally accepted food contact, flammability and safety certifications. Birleşik Akrilik Sanayi produces 1500 tons of 100% Acrylic Solid Surface sheets annually.

## **BAS EXTRUDED**

Fully developed high-end technology of renowned OMIPA Extrusion Line boosts **Birleşik Akrilik Sanayi** in terms of innovation, efficiency and high quality. BAS produces 600 tons of extruded PMMA and solid polycarbonate sheets per month.

## **BAS CAST**

**BAS CAST** PMMA acrylic sheets, provides all kinds of solutions thanks to its wide range of different size and color. Birleşik Akrilik Sanayi produces 9000 tons of cast PMMA sheets per year.
